

amigo®

New kind of name tag with round or angular amigo® logo element

amigo® "alu-print" name tags are precision-printed via the UV direct to-substrate print method at high resolution. Color areas with negative elements are reproduced with top definition.

amigo® "alu-print" 38 amigo® "doming" 40

Innovative design

With their innovative design, the amigo® name tags from badgepoint® are unique in their field. In the amigo® "doming" badge series, a digital, offset or screen printing method is used to print the logo, before being finished with a three-dimensional transparent epoxy cover. A highly transparent acrylic glass profile protects the name card, which can be easily swapped. amigo® "doming" is particularly suitable for large-series production and is a particularly good-value option. In the amigo® "alu-print" badge series, badgepoint® prints the logo on brilliant aluminum digitally (rounded or square-shaped, whichever suits your CI best). The name cards, which can be labeled using a PC, are protected by a high-quality acrylic glass profile and can be easily swapped. amigo® logo and profile holders possible in a selection of designs, making a host of different combinations possible.

■ = logo preprinted, name flexible

amigo® "alu-print"

High Quality

amigo® "doming"

amigo® "doming" is a sophisticated name tag. The transparent epoxy dome and the high quality acrylic name holder go very well together.

Assembly of amigo® name tag: The name card holder is attached to the plastic basic holder. These parts will be connected to the logo element. (badgepoint® delivers amigo® name tags pre-fitted!)

With its metallic-colored logo element and cool, clean look, **amigo® "alu-print"** is particularly popular with firms and organizations in the healthcare sector.

Mix and match!

The **amigo®** series offers a diverse range of possible combinations. The 4 metallic and 2 plastic logo element surfaces, available in a round or square shape, with digitally printed aluminum or synthetic resin doming, can be combined with two name card holders of different colors.

The **amigo® "doming"** logo element is very good at showing off your company logo and will impress your audience with its high-quality metal surfaces.

amigo® "doming" is particularly well suited to applications in the hotel and catering trade, with its gold logo holder, shown here in the "square" version.

smag® magnetic system

For **amigo®** name tags **badgepoint®** recommends the patented and well-known **smag®** magnetic system in two strengths for normal ("standard") or extreme requirements ("extra"). The name tag can alternatively also be fitted with a pin or tie clip.

amigo® "alu-print"

Product features

- circular or square logo element, front plate made from aluminum
- front panel made of aluminum, anodized silver or gold
- high resolution, direct-to-substrate UV digital printing, including white!
- name card can be self-labelled, protected behind a acrylic glass profile
- time-tested name card format: 60x17mm
- card holder and logo element with snap lock
- metallic or plastic logo element surface

* Not suitable for persons wearing pacemakers. Refer to "Declaration of No Objection" from the German Federal Office for Radiation Protection: www.bfs.de/elektro/nff/andere_anwendungen.htm

The new-style design, with a slightly proud logo element, the matching components and its user-friendly nature, not to mention a host of possible combinations, have quickly made amigo® a highly popular name tag.

The amigo® name tag, with its smag® magnetic system and its counter module integrated in the holder, forms a compact unit.

Direct-to-substrate digital print on aluminum front panel

For all **amigo® "alu-print"** name tags, **badgepoint®** uses a digital direct-to-substrate print method, guaranteeing minimal initial costs and top quality. Logo colors are printed on our color-calibrated digital printing unit and cured with UV light. Our UV digital printing system allows a resolution of 1200 x 900 dpi and can even print white as a special color!

When choosing your motif, please note that the print margin from the top and bottom edge is 0.25 mm.

amigo® "doming"
